

Fast Delivery for International Purchases

Correios Packet is the simplified import service in Brazil, which includes receiving in Brazil, customs clearance and home distribution, offered to those operating in the international electronic commerce logistics chain, from international sellers, marketplaces, private logistics operators and designated postal operators.

This is a new solution that aims to streamline the entire import process, as it has complete technological integration from posting at origin, Correios, Brazilian Customs Authority and Foreign Trade Control Agencies, ensuring faster and safer delivery to the Brazilian importer.

Importing orders with full tracking, from the origin to final recipient;

Exchange Information via *Application Programming Interface - API* e *Electronic Data Interchange - EDI*;

It involves receiving orders in Brazil, customs clearance and delivery to the final recipient.

Another qualified shipping option for Brazilian e-consumers;

It is possible to track orders using the tracking code or the CPF of the Brazilian importer/recipient, either through the Object Tracking System or through the importer's portal, in the "My Imports" environment on the Correios website.

BENEFITS

Qualified import service for
Parcel delivery throughout Brazil.

It is possible to fully track the
order, from origin to final delivery.

Speed and integrity
in the exchange of information via
application, allowing a
more agile connection among Origin,
Correios and Customs Authority in Brazil;

Consequently, it offers more agility
in the processes of customs clearance and delivery
in the last mile,
providing the shortening of the
total delivery time in Brazil;

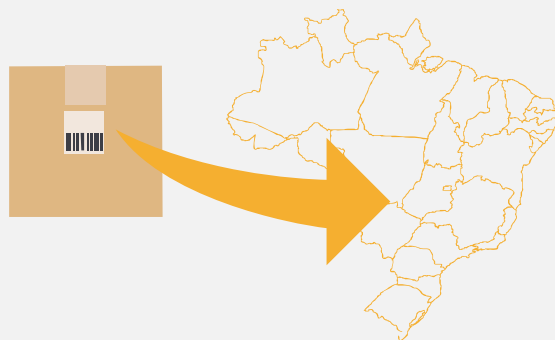

Improved Brazilian e-consumers shopping
experience.

Postal Dispatch already included in the shipping
costs.

There is no extra charge for the Postal Dispatch
service.
